Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided into parts corresponding to the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to identify the classes, and the prices of the semiannual or annual issues.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc.).

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Information as to changes of copyright ownership is not included in the *Catalog*, but a search of the Copyright Office Assignments and Related Documents Indexes may be requested from the Register of Copyrights. A fee for the search and report will be estimated at the statutory rate of $5 per hour.

For each registration listed, except for renewals, there has been deposited a copy or copies of the work in accordance with the provisions contained in sections 12, 13, 14, or 215 of Title 17 of the *United States Code*.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog* at $50 a year, for periods of one, two, or three years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Superintendent of Documents.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Organization of Parts

Each part listed in the following table records all current registrations in the class or classes indicated by the alphabetical symbols. Renewal registrations are listed separately at the end of each related part. Some parts also contain registrations made under symbols other than those listed for the particular part, if the subject matter or type of material is similar to that generally included in the part.

The first letter of the symbol is that of the class under which registration is made. Second and third letters, if any, that follow the initial letter are added by the Copyright Office for the purpose of statistical analysis. Their significance is as follows:

F	Published foreign works. In the case of books and periodicals, it designates works manufactured outside the United States (except those registered for ad interim copyright). In all other classes to which it applies, it designates works first published outside the United States, the authors of which are neither citizens nor domiciliaries of the United States. (AF, EF)
I	Books and periodicals registered for ad interim copyright. (AI, BI)
O	Published works of foreign origin registered under the waiver-of-fee provision (section 215 of Title 17 of the *United States Code*). (BIO, GFO)
P	Domestic published works in classes for which registration is possible for either published or unpublished works. (EP, JP)
U	Unpublished works in classes for which registration is possible for either published or unpublished works. (DU, EU)

		Price per semiannual issue
Part 1	Books and Pamphlets, Including Serials and Contributions to Periodicals (In 2 sections)	$7. 50
A	Books	
BB	Contributions to periodicals	
R	Renewal registrations

Introduction

PART 1 lists works registered in class A and contributions to periodicals registered in class B under the symbol BB. Works for which the copyright has been renewed are listed separately in the Renewal Registrations section.

The works listed include not only the current output of the book publishing industry of the United States and many works in English and in foreign languages published abroad, but also the products of many specialized publishing enterprises. Thus, in addition to novels, biographies, poems, books on history, religion, etc., and other works of general interest, there are included business reports and yearbooks, trade catalogs and directories, manuals, instruction books, business and legal services, research studies in many fields, and, in some instances, printed matter attached to or accompanying games, filmstrips, and other articles.

Each work is described in a main entry which includes information pertinent to the copyright claim. Arrangement of entries is alphabetical under the name of the author (i.e., the person or organization principally responsible for the content of the work), or, in the case of some serials and certain other works, under the title. References are made to the main entries from the names of contributing authors (e.g., joint authors, editors) and claimants.

Each name listed appears in the fullest form and in the spelling found in the work and accompanying application. A name recorded in connection with more than one work and application may therefore appear in varying forms and degrees of fullness. In some cases where variations occur but it can be ascertained that the names refer to one entity, a single form of the name may be used.

The Title Index, issued as a separate section, covers both currently registered works and renewal registrations. Titles of telephone directories are omitted as are titles of works entered under title in the first two sections. Renewal registrations are identified by the symbol (R).

For works currently registered, each main entry includes, in addition to the name or title under which it is filed, the following items of information if available and applicable:

1) Title.
2) Names of joint authors, editors, translators, etc., generally if no more than four.

3) Edition statement.

4) Place of publication for all foreign works; and for domestic works if given in an imprint on the work, unless the work is entered under the publisher as author.

5) Name of the first-named publisher given in an imprint on the work; when the publisher is also the author the name is omitted.

6) Physical description, consisting of the number of pages or other terms descriptive of the work; unpaged works of more than 8 pages, and those with complicated or irregular paging are described as 1 v.; for works issued in more than one volume, the number of volumes is given. No description is given for directories and serials.

7) Series statement.

8) Statement that the work was first issued in a newspaper or magazine or that it was published with or as part of another work.

9) Names of authors given in the application which do not appear elsewhere in the entry.

10) Name of the employer in the case of a work made for hire, if so named in the application.

11) Application title if it varies substantially in wording from the title as it is given on the work.

12) Information contained in the application which relates to the registration of an earlier version of the work.

13) Brief statement of the new matter on which copyright is claimed, preceded by the abbreviation NM, if this information is given in the application and is not indicated elsewhere in the entry.

14) Copyright symbol ©.

15) A statement of limitation of claim to a certain portion of the work if the application or the work explicitly limits the claim.

16) Name of the copyright claimant.

17) Date of publication as given in the application.

18) Registration number.

Whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application is given first, followed by the phrase "in notice" and the data given in the work; e.g., © Richard Roe & Co.; 20Ju72 (in notice: 1971); A352000.

Works deposited in connection with copyright registration may be selected for inclusion in the collections of the Library of Congress. Library of Congress printed cards are available for many of the published works so selected. Orders for such cards or inquiries concerning them should be addressed to the Card Division, Building No. 159, Navy Yard Annex, Washington, D.C. 20541.

For renewal registrations, each main entry includes, in addition to the name or title under which it is filed, the following items of information if available and applicable:

1) Title.

2) Names of authors of renewable matter when there are more than one.

3) Edition statement.

4) Series statement.

5) Brief statement of the new matter on which the original copyright was claimed, preceded by the abbreviation NM, if available in the renewal application.

6) Copyright symbol ©.

7) A statement of limitation of claim to a certain portion of the original work if the application explicitly limits the claim.

8) Date of original copyright.

9) Original registration number.

10) Name of the renewal claimant followed by a statement in parentheses, usually abbreviated, giving the basis of the renewal claim as supplied by the applicant; e.g., "John Doe (NK)" indicates that renewal of copyright is claimed by John Doe as next of kin of the deceased author.

11) Date of receipt of the renewal application or fee, whichever is later.

12) Renewal registration number.

Registrations July-December 1972

Books, pamphlets, and serials manufactured in the United States	45, 307
Books manufactured abroad (except those registered for ad interim copyright)	2, 774
Books in the English language registered for ad interim copyright	252
Total	48, 333
Contributions to newspapers and periodicals	1, 000
Renewals:	
Books, pamphlets, and serials	3, 405

These figures represent the number of registrations for books, pamphlets, serials, and contributions to periodicals for July–December 1972, but do not necessarily represent the exact number of entries in this issue of the *Catalog of Copyright Entries.* Registration figures for other classes of material may be found in the respective parts.

Abbreviations and Symbols

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings.

(A)	author(s)

Aircraft engineering bulletin. © Aeroquip Corp. AEB
158. For avionics coolant systems new gimbal mounted "blind mated" disconnects. © 25May72; A355984.
164. For advanced hydraulic systems 3000 psi high temperature 450° F. internally mounted couplings with omniseals. © 25May72; A355980.
166. New lightweight low cost avionics coolant couplings. © 30Mar72; A355983.
167. AE223 low pressure avionics coolant hose. © 20Apr72; A355982.
170. Aeroquip 666/667 medium pressure hose of Teflon and "Super Gem" reusable fittings. © 27Apr72; A355973.
171. Aeroquip 666/667 medium pressure hose of Teflon and "Super-C" crimped fittings. © 27Apr72; A355974.
172. Aeroquip AE206 high pressure hose of Teflon with double wire braid reinforcement and "Super Gem" reusable fittings. © 27Apr72; A355975.
Marman product bulletin. © Aeroquip Corp. MPB
111. Sanitary hose clamp. © 31May72; A355981.
Omniseal application bulletin. © Aeroquip Corp. OAB
120. Omniseal provides bubble-tight sealing under high pressure in ITT Hammel-Dahl CTV valves. © 27May72; A355977.

AEROQUIP CORP. AIRCRAFT DIVISION.
Aircraft engineering bulletin. © Aeroquip Corp. AEB
173. High pressure hose of Teflon, AE246. Rev. © 27Apr72; A368911.

AEROQUIP CORP. BARCO DIVISION.
Barco application bulletin. © Aeroquip Corp. BAB
40. Two-mile underground 24-inch steam line uses Barco ball joints to handle movement. © 27Sep72; A387120.

AEROQUIP CORP. INDUSTRIAL DIVISION.
Cargo control bulletin. © Aeroquip Corp. CCB
21. 4-inch webbing with D-ring. © 31Jul72; A387124.
Cargo control systems. © Aeroquip Corp. CCB
18-1. CAMUS 1 load-restraining system for piggyback trailers. © 16Jun72; A371858.
Industrial engineering bulletin. © Aeroquip Corp. IEB
151. Easy replacement of fabric braid low pressure hose lines with the Aeroquip Socketless fitting and hose replacement kit. © 31Mar72; A355972.
157. The Aeroquip base valve system for connection of split-type air conditioning units. © 12Jun72; A371862.
161. 2580 polyester hose and fittings. © 30Jun72; A387123.
162. VW-F-388 Teflon hose assembly machine. © 27Apr72; A355976.
164. New low cost FT1053 dust collector for the S1102 hose cut off and stripping machine. © 27Apr72; A355978.
165. FLOCS 15 pumping unit. © 30Apr72; A371861.
Marine engineering bulletin. © Aeroquip Corp. MEB
39. Lightweight petroleum discharge hose and segmented reusable fittings. © 31Aug72; A387125.
Service bulletin. © Aeroquip Corp.
5166. Aeroquip for gasoline operated Flocs 100G units. © 15Oct72; A387113.

AEROQUIP CORP. MARMAN DIVISION.
How do you eliminate flexible metal hose failure? Folder. © Aeroquip Corp.; 27Sep72; A387119.
Marman product bulletin. © Aeroquip Corp. MPB
104. Light weight wrought coupling designed for use on the A-6, B-1 and F-14. © 28Sep72; A387118.
108. Marman heavy-duty band clamps for air inlets and radiator hose. © 15Sep72; A387117.
109. Servicemaster joint for truck exhaust lines. © 27Sep72; A387116.
110. Elliptical conoseal gaskets simplify installation problems. © 15Oct72; A387115.
112. Exhaust manifold coupling. Pt. no.MLV-90603. © 25Oct72; A387114.

An American National Standard. IEEE Standard test procedures for photomultipliers for scintillation counting and glossary for scintillation counting field. ANSI N42.9-1972. IEEE Std 398-1972. New York, Institute of Electrical & Electronics Engineers. 28 p. Appl. author: Institute of Electrical & Electronics Engineers, Inc. © Institute of Electrical & Electronics Engineers, Inc.; 20Sep72; A384249.

An American National Standard. IEEE Standard test procedure for the evaluation of sealed insulation systems for AC electric machinery employing form-wound stator coils. ANSI C50.26-1972. IEEE Std 429-1972. New York, Institute of Electrical & Electronics Engineers. 15 p. Appl. author: Institute of Electrical & Electronics Engineers, Inc. © Institute of Electrical & Electronics Engineers, Inc.; 20Sep72; A384250.

American National Standard acceptable concentrations of hydrogen sulfide. ANSI Z37.2-1972, revision of Z37.2-1966. Secretariat: American Industrial Hygiene Assn. 8 p. © American National Standards Institute, Inc.; 9Nov72; A390111.

American National Standard acceptable concentrations of inorganic mercury and non-alkyl organo compounds. ANSI Z37.8-1972, revision of Z37.8-1943 (R1971) Approved April 18, 1972. Secretariat: American Industrial Hygiene Assn. 8 p. © American National Standards Institute, Inc.; 15Aug72; A362006.

American National Standard American gaging practice for metric screw threads. ANSI B.16-1972. Secretariat: Society of Automotive Engineers, Inc. & the American Society of Mechanical Engineers. New York, American Society of Mechanical Engineers. 33 p. Appl. author: American Society of Mechanical Engineers. © American Society of Mechanical Engineers; 20Sep72; A379534.

American National Standard analytical procedures for accountability of uranium hexafluoride. ANSI N15.7-1972. Secretariat: Institute of Nuclear Materials Management. 27 p. © American National Standards Institute, Inc.; 15Nov72; A390117.

American National Standard analytical procedures for accountability of uranium tetrafluoride. Approved April 20, 1972, American National Standards Institute, Inc. Secretariat: Institute of Nuclear Materials Management. 32 p. © American National Standards Institute, Inc.; 13Oct72; A377938.

American National Standard basic requirements for cargo containers. ANSI MH 5.1-1971. Secretariat: International Material Management Society & the American Society of Mechanical Engineers. New York, American Society of Mechanical Engineers. 37 p. © American Society of Mechanical Engineers; 28Jun72; A358160.

American National Standard buttwelding ends. ANSI B16.25-1972 (Revision of ASA B16.25-1964) Secretariat: Mechanical Contractors Assn. of America, Manufacturers Standardization Society of the Valve & Fittings Industry & the American Society of Mechanical Engineers. New York, American Society of Mechanical Engineers. 10 p. © American Society of Mechanical Engineers (in notice: American Society of Mechanical Engineering); 30Aug72; A384081.

American National Standard cast-iron threaded fittings, 125 and 250 lb. ANSI B16.4-1971. Secretariat: Mechanical Contractors Assn. of America, Manufacturers Standardization Society of the Valve & Fittings Industry, American Society of Mechanical Engineers. New York, American Society of Mechanical Engineers. 8 p. © American Society of Mechanical Engineers; 16Nov71; A355239.

American National Standard clevis pins and cotter pins. ANSI B18.8.1-1972 (partial revision & redesignation of ANSI B5.20-1958) Secretariat: Society of Automotive Engineers & the American Society of Mechanical Engineers. New York, American Society of Mechanical Engineers. 6 p. © American Society of Mechanical Engineers; 14Jul72; A358162.

American National Standard code for pressure piping; addenda to power piping, ANSI B31.1.0-1967. ANSI B31.1.0c-1972. Secretariat: American Society of Mechanical Engineers. New York, American Society of Mechanical Engineers. 7 l. © American Society of Mechanical Engineers; 28Jun72; A358154.

American National Standard common name for the pest chemical 4-(dimethylamino)-3,5-xylyl methylcarbamate "mexacarbate". ANSI K62.118-1972. Approved May 2, 1972. Secretariat: Dept. of Agriculture. Sheet. © American National Standards Institute; 22Aug72; A362003.

American National Standard common name for the pest control chemical O,S-dimethyl acetylphosphoramidothioate "acephate". ANSI K62.120-1972. Approved May 2, 1972. Secretariat: Dept. of Agriculture. Sheet. © American National Standards Institute; 22Aug72; A362002.

American National Standard common name for the pest control chemical 2-sec-butyl-4,6-dinitrophenol "dinoseb". ANSI K62.119-1972. Approved May 2, 1972. Secretariat: Dept. of Agriculture. Sheet. © American National Standards Institute; 22Aug72; A362004.

American National Standard dimensions and identification code for mounting flanges and shafts for positive displacement hydraulic fluid power pumps and motors. ANSI B93.6-1972 (NFPA std. T3.9.2 R1) Sponsors: National Fluid Power Assn., Inc. & Society of Automotive Engineers, Inc. © National Fluid Power Assn., Inc.; 11Oct72; A375399.

American National Standard dimensions for photographic flashcubes (battery operated) ANSI PH3.51-1972. Secretariat: National Assn. of Photographic Manufacturers, Inc. Approved January 12, 1972, American National Standards Institute, Inc. 12 p. © American National Standards Institute, Inc.; 30Jun72; A350943.

American National Standard dimensions of aerial film spools. ANSI PH1.2-1972, revision of PH1.2-1964. Approved April 5, 1972, American National Standards Institute, Inc. Secretariat: National Assn. of Photographic Manufacturers, Inc. 8 p. © American National Standards Institute, Inc.; 26Sep72; A372917.

American National Standard dimensions of containers for packaging and storage of aerial photographic film on spools. ANSI PH1.46-1972. Approved April 3, 1972, American National Standards Institute, Inc. Secretariat: National Assn. of Photographic Manufacturers, Inc. 8 p. © American National Standards Institute, Inc.; 13Sep72; A372915.

American National Standard dimensions of 126-size cartridges, film, and backing paper. ANSI PH1.40-1972. Approved April 5, 1972, American National Standards Institute, Inc. Secretariat: National Assn. of Photographic Manufacturers, Inc. 16 p. © American National Standards Institute, Inc.; 11Jul72; A356891.

American National Standard drill drivers, split-sleeve, collet type. ANSI B94.35-1972 [revision of ANSI B94.35-1959 (R1971)] Secretariat:

AMERICAN NATIONAL STANDARDS INSTITUTE, INC.-Con.

American National Standard drill drivers, split-sleeve, collect type.-Con.

American Society of Mechanical Engineers. 6 p. © American Society of Mechanical Engineers; 26Oct72; A385979.

American National Standard for commercial gas baking and roasting ovens. ANSI Z21.28-1971. Approved December 17, 1971, American National Standards Institute, Inc. Secretariat: American Gas Assn. 8th ed. 39 p. © American Gas Assn.; 8Aug72 (in notice: 1971); A363648.

American National Standard for gas-fired duct furnaces. ANSI Z21.34-1971. Approved December 17, 1971, American National Standards Institute, Inc. Secretariat: American Gas Assn. 7th ed. 55 p. © American Gas Assn.; 26Sep72 (in notice: 1971); A377588.

American National Standard for gas-fired gravity and fan type vented wall furnaces. ANSI Z21.49-1972. Approved February 17, 1972, American National Standards Institute, Inc. Secretariat: American Gas Assn. 19th ed. 52 p. © American Gas Assn.; 2Oct72; A377586.

American National Standard for gas fired kettles, steam cookers and steam generators. ANSI Z21.46-1971. Approved December 17, 1971, American National Standards Institute, Inc. Secretariat: American Gas Assn. 3d ed. 36 p. © American Gas Assn.; 17Aug72 (in notice: 1971); A371022.

American National Standard for gas-fired low-pressure steam and hot water boilers. ANSI Z21.34-1972. Approved February 17, 1972, American National Standards Institute, Inc. Secretariat: American Gas Assn. 17th ed. 59 p. © American Gas Assn.; 2Oct72; A377587.

American National Standard for gas-fired single firebox boilers. ANSI Z21.52-1971. Approved December 17, 1971, American National Standards Institute, Inc. Secretariat: American Gas Assn. 2d ed. 42 p. © American Gas Assn.; 26Sep72 (in notice: 1971); A377589.

American National Standard for hotel and restaurant gas deep fat fryers. ANSI Z21.27-1971. Approved December 17, 1971, American National Standards Institute, Inc. Secretariat: American Gas Assn. 7th ed. 39 p. © American Gas Assn.; 8Aug72 (in notice: 1971); A363647.

American National Standard for outdoor cooking gas appliances. ANSI Z21.58-1972. Approved March 16, 1972, American National Standards Institute, Inc. 1st ed. Arlington, Va., Secretariat: American Gas Assn. 31 p. Appl. author: American Gas Assn. © American Gas Assn.; 20Jul72; A357846.

American National Standard for the preparation of scientific papers for written or oral presentation. ANSI Z39.16-1972. Secretariat: Council of National Library Associations. 16 p. © American National Standards Institute, Inc.; 14Oct72; A390116.

American National Standard for the preparation of scientific papers for written or oral presentation. Approved August 31, 1972, American National Standards Institute, Inc. Secretariat: Council of National Library Associations. 16 p. © American National Standards Institute, Inc.; 13Oct72; A377939.

American National Standard general purpose semi-tubular rivets, full tubular rivets, split rivets, and rivet caps.
